

# DIMAS PUTRA ARYAWAN

Jakarta, Indonesia

10 January 2005, 21

(+62) 822-9777-3912

## SUMMARY

---

I'm a Computer Science undergraduate from Binus University, that's currently diving deep into Artificial Intelligence with machine learning, natural language processing, and speech recognition as my starting point. I also have a curious mindset, actively exploring other things such as Mobile Development and IoT and always eager to broaden my skills with new experiences and new people. As a professional, i'm currently interning at ITDIV specializing in Web Development as a full-stack developer, where over the past three months, I've achieved a go-getter mindset, gained significant experience in web development within a professional office setting, and working on multiple projects along the way. I also actively involve myself in diverse organizations outside my major, trying new experiences and meeting up with a wide range of people.

## EXPERIENCE

---

**Web Developer | Associate Member in ITDIV Bina Nusantara** March 2025 - Present

- An active programmer that's currently active on multiple projects, some of which are BinusCareer Website.

- **Technical Skills:** Web Programming, Basic Mobile App Development, Basic AI Engineering, Photo Editing, Video Editing, Graphic Design, and UI UX.
- **Programming Languages:** React Native, ReactJS (JS and TS), HTML CSS, Laravel (PHP), Python, .NET (C#), C.

## PROJECTS

---

### Willify | Solo

- Mini Spotify-like website. Users will be able to play songs and its lyrics.

### Text-Emotion-Detector | As AI Engineer and Front-End Developer

- Simple Machine Learning emotion prediction based on user sentence input with its graph-based probability.

### SubDue | As Front-End and UI/UX Developer

- Mobile App that lets user track subscriptions cost, its due date, see graph-based analytics of their payments, and see other app recommendations.

### MoodMelodyAI | As AI Engineer

- A platform where user can input sentence and a machine learning model will predict their current mood with some recommended songs based on their mood.

### DigitMaster | As UI/UX Developer

- Digit memorization game with speech recognition implementations

### Corsoly | Solo

- top Spotify tracks from the last 30 days tracker.
